

DUPLANTIS DESIGN GROUP

ABOUT OUR COMPANY

In 1997, DDG began as a small, local civil engineering firm based in Thibodaux, Louisiana. From the very beginning, we believed that exceeding our clients' expectations was the only way to achieve long-term success. In the 21 years since our founding, our unwavering commitment to client service excellence has allowed us to grow into a multidisciplinary regional firm with over 100 full-time employees with offices in Thibodaux, Covington, Baton Rouge, Lafayette and Houston. Originally offering services in civil engineering, we have methodically expanded our services to include architecture, coastal and water resources engineering, landscape architecture, and most recently specialized services in structural engineering and land surveying. Through the hiring of key staff and strategic partnerships with specialty firms, DDG has proven the capability to cost-effectively deliver a wide range of services and support.

WHAT WE DO

DDG is a soup-to-nuts design firm and is exceptionally experienced in managing all aspects of development projects. In addition to our design services, we also provide clients with conceptual site planning, site investigation reports, assisting with property acquisitions, representation

at public hearings, permitting, entitlements, and construction administration. Our firm's portfolio is very diverse in project types— industrial, retail, commercial, single family and multifamily subdivisions, restaurants, medical facilities, municipal improvement projects, parks and recreation, and coastal restoration and protection. We have experience assisting clients with many project delivery methods, including build to suit, reverse build to suit, design assist, design bid build, etc.

OUTLOOK

DDG will continue to remain flexible as trends in the marketplace and geography shift. We pride ourselves on the ability to be nimble to always put our clients and employees first. We remain cautiously optimistic with an appreciation that our core values of RICE (Respect. Integrity. Client Satisfaction. Excellence.) will produce success.

WHAT TO EXPECT IN THE FUTURE

DDG implemented a 5-year plan in early 2017 to provide not only growth for our company, but advantageous opportunities for our current employees. Several key goals of the plan have already been achieved and are prime examples of DDG's dedication to the industry. From adding service lines to office locations, our focus remains the same - delivering successful projects and providing excellence to our clients
